Profile

Experienced MERN Stack Developer with 3+ years of hands-on expertise in developing dynamic and responsive web applications using React.js. Proficient in UI design, performance optimization, and elevating user experience. Skilled in full-stack development with Node.js, MongoDB, AWS EC2, S3 bucket, and Azure database. Proven track record of collaborating with cross-functional teams to deliver superior software solutions meeting client requirements. Adept at enhancing operational efficiency and exceeding project expectations

Skills

- React.js
- Node.js
- Express.js
- MongoDB
- JavaScript
- HTML/CSS
- AWS-S3, Ec2
- SQL
- Typescript
- Firebse

Libraries

- Tailwind css
- Materila UI

Education

Bachelor of Science (B.Sc.) – MPCS

2015 - 2018

Rayalaseema University, Kurnool

Studied foundational concepts in Mathematics, Physics, and Computer Science. Gained practical knowledge in programming languages (C, C++, Java), database systems, and basic electronics. Developed analytical and problem-solving skills through academic projects and lab sessions..

Experience

Mern Full Stack Developer

Ciyash Technolgies Pvt Ltd

May 2024 -Present

PICK2WIN web and mobile APP

Tech Stack: Node.js, Express.js, MySQL, Redis, JWT, Firebase Cloud Messaging (FCM), REST APIs, PM2, Git

- Developed and maintained scalable RESTful APIs for the PICK2WIN backend using Node.js, Express.js, and MySQL.
- Designed and optimized MySQL database schemas, complex SQL queries, joins, transactions, and indexing to improve application performance.
- Implemented secure JWT-based authentication, wallet management, subscription management, and contest-related backend business logic.
- Integrated third-party sports data APIs to synchronize series, matches, teams, players, and Playing XI, and implemented Firebase Cloud Messaging (FCM) for push notifications.
- Built analytics and reporting APIs, implemented Redis caching, centralized API logging, and comprehensive error handling to improve performance and reliability.
- Deployed and maintained backend services on Linux servers using PM2 and Nginx, while troubleshooting production issues and optimizing existing APIs.

Mern Full Stack Developer

JOBMINAR Consultants Pvt Ltd

Dec 2022 - Dec 2023

TaskTigers

- Developed and maintained backend for a service management platform.
- Built and optimized RESTful APIs for handling service requests, tasks, and user interactions.
- Integrated AWS services:
 - S3 for media storage
 - EC2 for server deployment
 - DynamoDB for scalable NoSQL data storage
- Focused on performance, error handling, and secure data processing across the system.

TOOLS & PLATFORMS

Firebase, GitHub, GitLab, Figma

GITHUB

Added my projects and code contributions to GitHub to showcase my work and skills.

Showcased my projects, code contributions, and development skills on GitHub, demonstrating proficiency in various technologies and best coding practices.

DEPLOYMENT & HOSTING

FRONTEND, BACKEND

Frontend hosted on Vercel, backend API on Render, and production tested on AWS EC2 nstance

Configured CI/CD pipelines for automatic deployment

Managed environment configs and SSL for secure deployment
